

I am the youth director for Pine Grove Baptist Church and the youth of our church listen to k-love radio. In the world today there is so much trash on the airwaves and k-love is an alternative to this trash. Our youth need this inspiring translator service to give them music that is positive and clean without having to worry about foul language or bad morals. I am a 44 year old telephone man and I see what effect that some of the modern music has on the youth of this country. If you have listened to k-love I do not see how you could possibly think of taking one of the few positive and encouraging things out of these young peoples lives. I beg of you please do not replace k-loves translator service with a low power fm station for this will be a setback for God in our community and the development of youth in a positive direction. Personally I enjoy k-love as much as the youth. We are a small community and there is no way we could replace this station if it were gone. May God Bless You and guide you in this matter and may God be with you the rest of your days.

David White

Youth Director  
Church Treasurer and  
Lions Club Secretary/Treasurer
